### PROFILE

---

I'm a dedicated Senior Full-Stack Developer with **6+ years** of experience building dynamic products. I excel at creating intuitive, high-performance solutions that prioritize user experience. Known for my problem-solving skills and leadership in collaborative team environments, I've worked on a wide range of projects, always focused on delivering quality results.

### LANGUAGES AND TECHNOLOGIES

---

I strive to be programming language agnostic, focusing more on building effective solutions than adhering to specific languages. With expertise in frontend development, web design, and backend programming, I am:

- Proficient in TypeScript, JavaScript, React, Svelte, SvelteKit, React Native, and Node.js.
- Prior experience with Next.js, Vue.js, Nuxt, Python, HTML, CSS, Django, FastAPI, Flask, PostgreSQL, Microservices, and Web Architectures such as Serverless and Monolithic architecture.

### PROFESSIONAL EXPERIENCE

---

#### Senior Full-Stack Developer

Sep 2023 – present

Bilby Ltd. [🌐](#)

Hong Kong, SAR

- Spearheaded the development of an [AI SaaS platform](#) [🌐](#) used by analysts, multinational corporations, and commercial banks to predict and analyze government activities, driving a 22% increase in monthly recurring revenue (MRR).
- Led a team of 4 engineers to create an [AI SaaS for government relations](#) [🌐](#), contributing to a 12% growth and helping the company achieve revenue-positive status.
- Built an AI chatbot for analysts, reducing research time by 45% and streamlining access to critical information.
- Designed scalable, easily deployable system architectures for SaaS products, reducing development costs by 80% and accelerating time-to-market by 76%.

#### Full-Stack Developer (Frontend Heavy)

Aug 2022 – Sep 2023 | Berlin

Bilateralstimulation.io [🌐](#)

- Contributed to a **400%** increase in MRR, growing it from *\$2,000 to \$10,000*, significantly boosting the company's revenue and overall growth trajectory.

- Developed the core Presets feature, used by hundreds of users in production, leveraging serverless functions (Netlify) and a serverless database (Upstash) for seamless CRUD operations.
- Led the design and implementation of a comprehensive [Help Page](#), complete with engaging video tutorials and a detailed FAQ section, significantly enhancing therapist satisfaction and driving platform growth.

## Front-end Developer

Aug 2019 – Sep 2022

[Uplancer Agency](#)

Columbus, United States

- Created a dynamic slide feature for [Pitch Up](#), a sales enablement software that improved the user experience and increased sales for potential customers.
- Played a key role in the development of a presentation web app for [DePuy Synthes](#), a Johnson & Johnson subsidiary that specializes in orthopedic medical devices.
- Designed and implemented a student profile page, enhancing account management and boosting user engagement and satisfaction.
- Spearheaded the development of an intuitive UI for organizing gigs into categories—active, offer, and interview—streamlining job tracking and facilitating transparent communication for users.

## PROJECTS

---

### [Limey.io](#)

A no-code, website builder that allows users to create professional-looking websites with ease.

### [CSS Media Query Checker](#)

Created an npm package with 50+ weekly downloads, streamlining CSS media query checking and breakpoint matching for web developers, improving workflow efficiency.

### [MedXpert](#)

A cutting-edge healthcare mobile application, featuring search, recommendation, scheduling, notification, and automation capabilities to streamline healthcare services.

### [Simba City](#)

Contributing to the development of an ambitious open-source project aimed at building a virtual city on the internet using React, Node.js, and MySQL, fostering a community-driven vision.

## EDUCATION

---

### **B.S. in Information Technology Engineering**

Jul 2022 | Addis Ababa, Ethiopia

[Addis Ababa University](#)
